RE: Docket # 98N-1038 (99, MAY 20 P1:43)

Hello. As a consumer of food, I think it's unwise to irradiate food for the sake of longer shelf-life at the expense of our national health.

But secondarily, if it is irradiated, it is ~~only~~ unthinkable not to have it clearly & explicitly labeled so consumers can make an educated purchase.

Please do not further endanger our health and pull wool over unknowing eyes.
